

Powerline Plus is Committed to the Environment

“Part of the Solution in Preventing Pollution!”

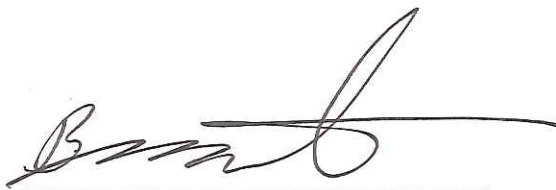

Powerline Plus Ltd. is committed to conducting business in a manner that prevents pollution minimizes impact on the environment. This reflects Powerline Plus Ltd.’s commitment to comply with all environmental regulatory obligations. We are committed to continually improving our environmental performance. Environmental requirements will be integrated into our culture, management, planning and execution of work.

This Environmental Policy applies to all Powerline Plus Ltd. employees and contractors working for or on behalf of Powerline Plus Ltd.

We are committed to demonstrating leadership through our actions.

Our personal commitments:

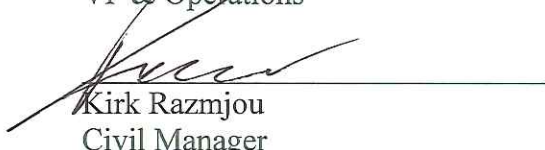

- Implement policies, programs, procedures, and other actions for the prevention of pollution that may result from Powerline Plus Ltd.’s activities.
- Exercise environmental excellence daily, including timely implementation of environmental protection, and related industry best practices.
- Support processes for regular environmental inspections and monitoring as required
- Promptly addressing any environmental non-conformances
- We will ensure compliance with all regulatory requirements
- We will investigate events and learn from them to prevent recurrence
- We will continue to find new ways to prevent pollution and protect the environment during Powerline Plus Ltd.’s activities.
